PLAISTOW BRIDGE REPAIRS ON NH ROUTE 121
SINGLE LANE TRAFFIC ON BRIDGE OVER RAILROAD AND LITTLE RIVER

The New Hampshire Department of Transportation announces bridge repairs are scheduled to begin Thursday, May 29, 2003 on the NH Route 121 bridge over railroad and Little River in Plaistow.

This bridge deck repair work will require single lane traffic for four weeks from 7:00 AM to 3:00 PM daily. Warning signs, flaggers and cones will be used to guide motorists through the work zone. Minor delays can be expected. If possible, motorists are encouraged to find other routes.

In the case of inclement weather, work on this project will begin on the next suitable workday.
